Mirror and Satin

Black Ruthenium

Mirror and Satin

Deep Dyed Galuchat

The Atelier AKNAS offers 29 colors of deep-dyed stingray leather with the original galuchat finish.

This finish, offering a distinctive soft touch and suppleness to the skins was developed by Jean-Claude Galluchat (with two L's) in the last quarter of the 18th century in Paris, France.

Atelier AKNAS, in partnership with its tannery has evolved the original technique to be the only ones offering this quality in so many colors.

In parallel, Atelier AKNAS developed a unique know-how, or "savoir-faire", in turning these skins into stunning small, medium and large leather goods, as well as accessories.
